

# Security Guarding

Modern guarding solutions to protect your interests

## Security Guarding

CTR Secure Service have been involved in protecting people and assets since 2003 and in that time have gained valuable experience in the guarding sector.

By understanding your business, we are able to identify the level of support required in order to safeguard your people, assets and locations.

### What makes us different?

We build enduring relationships with our clients and focus on their specific needs, as opposed to suggesting generic solutions which have little positive effect.

We recruit leading specialists in their field who have gained years of guarding and security experience from managers through to individual security officers.

We believe in innovation through our approach and the integration of technology, ensuring we are pioneers.

### Benefits of CTR Secure Services

- Continual support 24/7
- Comprehensive analysis and reporting
- Wide range of additional security support
- Global reach and knowledge
- Innovative approach
- Innovative technological equipment

### Solutions

CTR are able to cater for a wide variety of requests and in turn are able to offer leading and professional solutions to each client.

**Security Guards** provide a professional and pro-active approach to your security needs, with the capability of securing assets and locations. Our security officers are also trained in other relevant areas such as First Aid, Security Awareness, Conflict Management and Communication techniques.

**Mobile Response** officers provide a rapid reaction to any incident and also provide long range patrols of locations, this includes being responsible as the dedicated key holder.

**Security Assessments** provide clients with a professional approach to identifying and understanding their actual needs in terms of security services to protect their organisation.

### Process

In order to add the most value to your business, then we need to understand your business, your staff and your operational goals. This will require a non-intrusive assessment conducted by individuals with the highest level of expertise and customer respect, and at the same time building a professional relationship with each client.

The aims of our assessment are to:

- Understand your business
- Assess current policies and procedures
- Identify potential areas of improvement
- Provide recommendations to enhance your current strategy
- Provide differing levels of support
