

Education Security Support

Safeguarding students, staff and assets

CTR Secure Services have gained various experience in University and educational security support services throughout the UK.

What makes us different?

We build enduring relationships with our clients and focus on what is important to them. We are also backed by relevant experience and the highest levels of insurance. We also understand the nature of educational environments and in particular the differing range of incidents that may occur from criminal damage through to dealing with mental health issues. For this reason we do not adopt a 'strong arm' approach as many providers do, instead we focus on delivering a service that reflects the sometimes delicate issues faced by Universities and so forth.

Benefits of CTR Secure Services:

- Experience in education
- Currently service Universities
- Experienced staff
- Holistic approach

Did you know?

Our security officers are adept at dealing with a range of incidents and situations, ensuring empathy and diligence at every level.

Solutions

CTR are able to cater for a wide variety of requests and in turn are able to offer leading and professional solutions to each client.

Security Guarding provides a professional presence on site using dedicated SIA security officers who are trained to deal with a variety of issues. This level of service also includes the capability of mobile response officers where needed.

Event Security can provide Universities and other educational facilities with an enhanced service consisting of SIA Close Protection staff and event staff. This could be in relation to a VIP visit or special event.

Security Consultancy provides clients with the capability of having dedicated consultants at hand as and when needed, this may be for the reason on conducting on site risk assessments, addressing physical/technical security issues, engaging in cyber security and so on.

Process

In order to add the most value to your business, then we need to understand your business, your staff and your operational goals. This will require a nonintrusive assessment conducted by individuals with the highest level of expertise and customer respect, and at the same time building a professional relationship with each client.

The aims of our assessment are to:

- Understand your business
- Assess current policies and procedures
- Identify potential areas of improvement
- Provide recommendations to enhance your current strategy
- Provide differing levels of support
